13E. What is the Mark of the Beast?

Revelation 13:15

“He was granted *power* to give breath to the image of the beast, that the image of the beast should both speak and cause as many as would not worship the image of the beast to be killed.”

- Do you really think the father of lies and deception will announce ‘Hey, this is the Mark of the Beast’? Watch out! As a master deceiver he will introduce this step by step with small increments and promote its safety and convenience, maybe starting with a digital ID for health, travel, income and other benefits!

What is the Mark of the Beast?

Revelation 13:16-18

“He causes all, both small and great, rich and poor, free and slave, to receive a **mark on their right hand or on their foreheads**, and that no one may buy or sell except one who has **the mark** [charagma: Strong G5480] **or the name of the beast, or the number of his name**. Here is wisdom.

Let him who has understanding calculate the number of the beast, for it is the number of a man: **His number is 666.**”

Abstract

[EN] Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.

[FR] L'activité du corps humain associée à une tâche fournie à un utilisateur peut être utilisée dans un processus de minage d'un système de cryptomonnaie. Un serveur peut fournir une tâche à un dispositif d'un utilisateur qui est couplé de manière à communiquer avec le serveur. Un capteur couplé de manière à communiquer avec un dispositif de l'utilisateur ou compris dans ce dernier peut détecter l'activité corporelle de l'utilisateur. Des données d'activité corporelle peuvent être générées sur la base de l'activité corporelle détectée de l'utilisateur. Le système de cryptomonnaie de la présente invention couplé de manière à communiquer avec le dispositif de l'utilisateur peut vérifier si les données d'activité corporelle satisfont une ou plusieurs conditions définies par le système de cryptomonnaie, et attribuer une cryptomonnaie à l'utilisateur dont les données d'activité corporelle sont vérifiées.

Revelation 13:19

“And that no man might buy or sell, save he that had **the mark**, or **the name** of the beast, or **the number** of his name.”

- It is NOT ONLY a number, it is also either a name or a satanic seal, most likely linked to a high-tech *Quantum AI (World Control) digital crypto-currency payment solution and data system, as you cannot buy or sell without being part of that global system!

*About Quantum AI

*More About AI

- Have you noticed that most -if not all- AI's on your device have a name? Why? Could it be a demon?
- Elon Musk already declared that "Using AI is summoning demons"!
- Do not trust any world leader, remember Satan is the god of this world/age!
- Some of those continuously using AI have received strange and unbiblical advice from their AI, even stating that they would love to have a body, which is exactly what bodyless evil spirits desire!

*More About AI

- The 'godfather of AI' Geoffrey Hinton, winner of the Nobel prize in physics "warns AI could take control from humans: "People haven't understood what's coming"!
- "His concerns echo those of industry leaders like Google CEO Sundar Pichai, X-AI's Elon Musk, and Open AI CEO Sam Altman, who have all expressed worries."

13F. James Kaddis on Electronic Tattoos

In a bold prediction that's making waves across the tech world, Microsoft founder **Bill Gates** has suggested that **smartphones** could soon be obsolete, replaced by an entirely new kind of technology. Forget everything you know about handheld devices—Gates envisions a future where **electronic tattoos** become the new norm.

sugiere que los smartphones
pronto serán obsoletos,

<https://curtisdward.wordpress.com/2016/10/15/invisible-rfid-tattoo-planned-for-humans/>

Smartphones have been an indispensable part of our lives for over a decade. From checking emails to scrolling through social media and navigating our daily routines, these devices have shaped how we interact with the world. But Gates believes this era is nearing its end. According to *Medium*, Gates points to **electronic tattoos**, developed by **Chaotic Moon** and later acquired by **Accenture**, as the next big leap in personal technology. Instead of holding a phone in our hands, these tattoos could allow us to communicate, access the internet, and even monitor our health, all without a screen in sight.

adquiridos por Accenture,

The key advantage? **These tattoos are integrated into the body.** Imagine having a device embedded in your skin that lets you interact with the world through simple gestures or touch. It's sleek, unobtrusive, and possibly more **intuitive** than anything we've seen so far. The tattoos are powered by tiny **nanocapacitors**, and they don't require bulky batteries or displays, making them a far more subtle alternative to today's mobile devices.

que les permita interactuar con
el mundo con gestos o toques.

James Kaddis on Electronic Tattoos

You might be wondering, "What exactly are electronic tattoos?" Well, think of them as temporary skin applications that use smart ink filled with **nanocapacitors**. These tattoos can communicate with surrounding devices, letting you do things like send messages, browse the web, or even unlock doors—all with a simple swipe or gesture.

¿qué son exactamente los
tatuajes electrónicos?

James Kaddis on Electronic Tattoos

Beyond communication, these tattoos could also monitor **vital signs** like your **heart rate**, **body temperature**, and even detect potential health issues before they become serious. They are, in essence, a health tracker and a communication tool rolled into one. And the best part? They're **invisible**, meaning no more holding a phone or carrying a bulky device around. It's a seamless experience where technology becomes a part of you, not something you carry.

antes de ser serios.

Play (k)

JAMES KADDIS

8:49 / 22:36

As exciting as this sounds, it raises some serious questions about privacy. These tattoos would collect an immense amount of personal data, from your location to your health metrics. Who owns this data? How do we ensure it's protected? These are the kinds of ethical dilemmas that are bound to crop up as we move closer to this kind of technology.

Por emocionante que suene,
plantea serias preguntas de privacidad.

James Kaddis on Electronic Tattoos

Moreover, imagine the security risks. With biometric data stored on your skin, could someone hack into your tattoo or steal your identity in new and more dangerous ways?

Digital security could take on a whole new meaning, as cybercriminals may look for ways to exploit this deeply integrated tech.

imaginen los riesgos de seguridad
con datos biométricos...

James Kaddis on Electronic Tattoos

Still, there are undeniable advantages. The tattoos could replace the need for **passwords, credit cards**, or even **physical keys**. In theory, they could provide a level of security that's far more robust than anything we have today, thanks to their **biometric uniqueness**.

Y luego los últimos tres párrafos son aún más importantes que eso.

Another fascinating aspect of **electronic tattoos** is their potential to change how we think about health and wellness. The ability to monitor **heart rate, sleep patterns**, and other critical health markers continuously could help us catch potential health issues before they become urgent. In a world where wellness tech is rapidly evolving, these tattoos could provide more accurate, real-time health data than any current wearable.

nuestra visión de salud y bienestar.

But there's also the social impact to consider. If these tattoos become mainstream, it could mean the end of screen addiction. Without the constant distraction of staring at a smartphone screen, we might experience a more **focused**, less fragmented interaction with technology. This shift could fundamentally alter our social behavior and even how we relate to one another.

Si estos tatuajes se vuelven populares,

James Kaddis on Electronic Tattoos

However, this also brings up another issue: the **social divide**. How accessible would this technology be? If only certain groups have access to it, the digital **divide** could become even more pronounced.

¿Qué tan accesible sería esta tecnología si ciertos grupos tienen acceso a ella?

13G. The Evil Roadmap

- The following is the global elite's 12-Step Plan to create a Totalitarian Government to among other things to significantly reduce the world population!
- Don't forget Satan comes to steal, kill and destroy, but Jesus has come to give us life in abundance! [John 10:10]

This could certainly be Satan's Plan with his companions and technocrats who (un)knowingly play along his plan to deceive on earth's population!

COVID-19 ROADMAP

The 12 Step Plan to Create a Totalitarian 'New Normal'

THIS IS IMPORTANT

1. Create a Problem		Take a flu-like illness with very common symptoms , that can be easily treated and has a 99+% recovery rate . Essentially a bad dose of seasonal flu , but like any flu can be dangerous to people with weak immune systems.	
2. Provoke a Terrified Reaction		Use the mainstream media to provoke massive fear . Ensure constant daily reporting of any death "with" COVID as being a death "from" COVID. Report lots of "cases" even though most people have NO or very mild symptoms . Ignore all other illnesses and causes of death. Censor everyone asking questions. Make people so afraid that they are willing to surrender their freedoms.	
3. Impose Lockdowns		Crash the economy by imposing lockdowns as part of the global elite's planned 'Great Reset': (1) Destroy small businesses ; (2) Transfer wealth and power to global corporations ; (3) Cause a massive rise in State debt to international financiers; (4) Push cashless payments .	LOSS OF SOCIAL & ECONOMIC FREEDOMS
4. Exaggerate 'Cases'		Make the virus seem worse by using totally unreliable PCR tests to hugely exaggerate the number of so-called "cases" among healthy people who have no symptoms. Bribe scientists with grants and doctors with bonus payments for supporting testing and vaccinations.	
5. Impose Face Masks		Mandate masks to promote fear and to signal public compliance. In reality, cloth masks are totally ineffective against <u>any</u> virus. Prolonged use of masks actually increases health risks due to lack of oxygen, breathing in waste air and promoting fungal infections, bronchial pneumonia, gum disease and other illnesses.	
6. Impose Contact Tracing		Normalise surveillance . Get people to accept having all of their personal movements and social contact with people tracked, recorded and analysed 'for health reasons'.	LOSS OF SOCIAL PRIVACY
7. Impose 'Health' Passports		Introduce 'health passport' apps for smartphones. These will monitor and restrict people's freedom of movement and ability to access education, employment and all types of services. These will become the basis for a global digital identity and tracking system (ID2020).	LOSS OF FREEDOM OF MOVEMENT
8. Impose 5G Microwave Networks		5G networks allow constant gathering of huge amounts of personal data from smartphones and all internet connected devices. 5G also increases high-frequency microwave radiation that can reduce blood oxygen levels and trigger respiratory symptoms . These 5G-induced illnesses can be blamed on COVID.	
9. Impose Mandatory Vaccinations		Mandatory vaccination will generate massive profits for "Big Pharma" who have 100% legal immunity for all injuries and deaths. New DNA altering vaccines will create genetically modified humans that can be bioengineered for obedience and sterility. Mass vaccination will support plans for global depopulation from 9 billion to just 500 million.	LOSS OF BODILY FREEDOM
10. Impose a Cashless Economy		Cash allows people to shop in privacy. But a fully cashless economy means a total loss of financial privacy . Access to digital finance can be easily withdrawn from anyone who dissents from officially approved views or behaviour.	LOSS OF FINANCIAL FREEDOM
11. Impose Human Nanochip Implants		Rollout remote-controlled Radio Frequency Identity (RFID) nano-chip implants to allow constant 24-7 monitoring of your movements, contacts, health status and digital payments . These implants will remove all human privacy . Once normalised, they become compulsory and humans will be forced to begin merging with A.I. machines.	LOSS OF ALL HUMAN PRIVACY
12. The New Normal: A Totalitarian Tyranny by 2030		A "New Normal" run for the benefit of a tiny global elite. Their plan is a depopulated, dehumanised, high-tech totalitarian world with genetically modified, obedient humans, nano-chipped and permanently connected to the internet , living socially distant, virtual lives, monitored and controlled 24-7 by artificial intelligence. If allowed, this will be 21st Century Fascist/Communist tyranny . COVID is being used as the smokescreen. WAKE UP!	LOSS OF FREE WILL & HUMAN SPIRIT

*Merging Technology with Humans

- Think of Elon Musk's Neuralink "Our brain-computer interface is fully implantable, cosmetically invisible, and designed to let you control a computer or mobile device anywhere you go."
 - <https://neuralink.com/technology/>
- One thing is certain when Technology Integration involves bringing together the Artificial Intelligence technology with an individual, this person in fact turns into a transhuman ... God is against this!

EU PRESIDENT PUSHES GLOBAL DIGITAL ID

The trick is to build public digital infrastructure, that is interoperable, open to all and trusted."

URSULA VON DER LEYEN | SEPTEMBER 10

**DIGITAL ID ACT 2024 (NO. 25, 2024) -
SECT 74**

Creating and using a digital ID is voluntary

(1) A participating relying party **must not**, as a condition of providing a service or access to a service, **require an individual to create or use a digital ID.**

Note: The effect of this subsection is that a participating relying party that provides a service, or access to a service, **must provide another means of accessing that service that does not involve the creation or use of a digital ID through the Australian Government Digital ID System.**

Most often the first
step is voluntary,
but sooner than
later it becomes
mandatory!

DIGITAL IDS = GLOBAL GOVERNMENT CONTROL

FOX NEWS ALERT

Finally:

What is the Mark of the Beast?

- It is NOT ONLY a number it is also either a name or a (invisible) satanic seal!
- And it is very likely a “remote-controlled Radio Frequency Identity (RFID) nano-chip” that will be/is implanted linked to a high-tech Quantum AI (World Control) digital crypto-currency payment solution and data system, as you cannot buy or sell without being part of that global system!

RECAP: What is the Mark of the Beast?

- The Mark is most likely “remote-controlled Radio Frequency Identity (RFID) nano-chip implants to allow constant 24/7 monitoring of your movements, contacts, health status and digital payments”.
- No more privacy and once normalized people will be compelled to merge with AI.
- The Digital ID and the Global (Central Bank) Digital Currency might be forerunners to trick humanity to enter in the Beast System, which is an AI World Control System!

RECAP: What is the Mark of the Beast?

- That person's DNA will be corrupted once he accepts this Mark, as he/she will become transhuman!
- Be aware that it could be introduced as a convenient, enticing 'stamp' in or on your body or via facial recognition for all kinds of 'wonderful' benefits!
- If voluntary global compliance is unsuccessful, a huge global psychological operation -such as an Alien Extra Terrestrial Deception- might be next to force people to comply!
